

Friendly, Personal Service... From the Comfort of Your Home.

Our SERVICES

Our Patient Centered Program provides you and your patients with the Technology, Tools and Professional Respiratory Services you strive for to deliver clinically proven care in the home.

Our Disease Management and Readmission Management programs help you meet and exceed your clinical and healthcare goals. Corner @ Home engages the patient in their Healthcare and increases satisfaction.

Our TEAM

- Corner @ Home improves the quality of life for our patients through clinically proven programs for reducing hospitalizations across a variety of chronic diseases, including COPD.
- Our success is linked directly to our Respiratory Therapists, using the newest technologies and best practices while working collaboratively with our Healthcare partners.
- Our Respiratory Therapists are available to you and your patients 24/7.
- Our Respiratory Care team consults with the hospital to develop a personalized care plan for each patient.
- During our collaborative treatment of your patient, we might include in-depth Education and/or Telemonitoring to improve compliance outcomes, satisfaction and to decrease Emergency Department visits and Hospitalizations.

Our PRODUCTS

RESPIRATORY EQUIPMENT

- CPAP, Auto PAP, BiLevel and Supplies
- Oxygen Systems, including the smallest Portables available and Travel O2 Systems
- Ventilators & Supplies
- Cough Assist
- Nebulizers & Supplies

WE ALSO CARRY A FULL SUPPLY OF DURABLE MEDICAL EQUIPMENT

Our MISSION

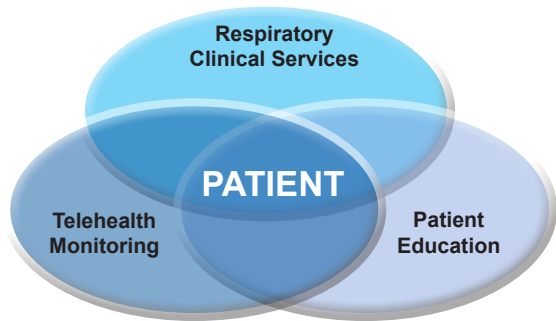

... is to foster compassionate care, collaborative education, quality, innovation and enhanced independent lifestyle... above all Trust.

Our GOAL

Corner @ Home's goal is to collaborate with you to complete the continuum of care for your patients.

Corner @ Home creates a close connection between our clinicians and patients. During our chronic disease management, patients receive the highest level of care as we minimize their chances of being readmitted back into the hospital and cuts down on emergency room visits.

Our Customer Service and Clinical Specialists are trained and knowledgeable in the instruction and use of the medical equipment and supplies we provide.
